

EMERGENCY STOP SWITCHES

For use with GDS Technologies alarm panels,
addressable and direct 4~20mA signalling

Addressable Emergency Stop

Complete with address card

Part No. 001-908

Connection Detail

E Stop – black to CANbus pcb 0v
E Stop – white to CANbus pcb Fault (Flt)

Direct Emergency Stop

4~20mA signalling

Part No. 001-909

Connection Detail

E Stop – red to alarm panel sensor input W
E Stop – black to alarm panel sensor input Y

Technical Sheet

C1847

Twist clockwise to release

Degree of Protection

IP 64

Dimensions

32mm mushroom head
145 x 145 x 60mm – Box

Entries

2 x 20mm knockouts

Operating Temperature

-25 °C to 65 °C
